

Ian Olsen Joins Remote Technologies as Direct of Sales

June 1, 2007 (Beaverton, OR) – Remote Technologies, the leading provider of end-to-end management systems for the Quick Service Restaurant (QSR) industry, is happy to announce that Ian Olsen has joined the company as Director of Sales and Business Development. Olsen brings Remote Technologies extensive experience in the QSR space, including multi-unit ownership of Pizza Schmizza franchises in greater Portland, Oregon.

“Ian is a successful entrepreneur, and very respected by his peers in the QSR industry,” said Peter Ozolin, the company’s chief executive officer. “His insights into the challenges faced by QSR franchisees, and how technology can help these challenges be overcome, will be invaluable as we step up our sales and marketing efforts.”

Prior to Ian’s involvement in the QSR segment, he successfully founded Lake Oswego based, Cannon Restoration & Development – a high end, single-family residential development company. In addition, he spent eight years as Vice President of Sales & Marketing for an international textile import/export company.

About Remote Technologies, Inc.

Remote Technologies, Inc. was founded in Portland, OR by a restaurant owner seeking a more efficient way to operate his store; the program he designed provided the foundation for the company’s flagship program, RemoteMgr.com. The program uses web-based applications and hardware to create an end-to-end QSR Management System, which include modules for Financials, Operations, Security and HR/Risk Management. Functions that can be performed with RemoteMgr.com include accounting and reporting; video surveillance; time and attendance tracking; employee communication; payroll; on-line food ordering; on-line training; and work scheduling. The application is in use by a number of leading franchise operations, including Subway and Pizza Hut. For more information, please call 877-639-2544 or visit www.remotemgr.com.
